

VirtuAnalytica Name Audit

This document records every occurrence of the private company name 'VirtuAnalytica' found in the knitweb/virtualpc repository before cleanup. The name has been removed from code, documentation, filenames, and generated artifacts and replaced with neutral VirtualPC Demo branding.

Tracked files with occurrences

public/virtuanalytica.html:7

```
<title>VirtuAnalytica - VirtualPC Demo</title>
```

public/virtuanalytica.html:103

```
<div class="sidebar-title">VirtuAnalytica</div>
```

public/virtuanalytica.html:141

```
<h1> VirtuAnalytica</h1>
```

scripts/verify-virtuanalytica.ts:3

```
const DEMO_URL = process.env.DEMO_URL || 'http://localhost:3100/virtuanalytica.html';
```

scripts/verify-virtuanalytica.ts:13

```
await page.screenshot({ path: 'data/verify-virtuanalytica.png', fullPage: true });
```

Untracked / generated files with occurrences

data-agents-sidecar/dashboard/create_demo_video.py:19

(OUT / "virtuanalytica.png", 6, "VirtuAnalytica - samenwerking data & kwaliteit")

data-agents-sidecar/dashboard/__pycache__/create_demo_video.cpython-312.pyc:0

Compiled Python bytecode containing the VirtuAnalytica string literal.

data-agents-sidecar/data/outputs/report/virtuanalytica.png:0

Generated screenshot artifact named after the old dashboard.

dist/integrations/lightrag/family-graph.js:155

{ name: 'VirtuAnalytica VOF', cat: 'bedrijf', note: 'VOF' }

Cleanup actions taken

- Deleted tracked legacy file public/virtuanalytica.html (superseded by public/demo-dashboard.html).
- Deleted tracked legacy script scripts/verify-virtuanalytica.ts (superseded by scripts/verify-demo-dashboard.ts).
- Updated data-agents-sidecar/dashboard/create_demo_video.py to reference demo_dashboard.png and VirtualPC Demo.
- Removed generated artifacts: __pycache__ file and virtuanalytica.png.
- Left dist/ untouched because it is a gitignored build output; it rebuilds from clean sources.
